

# Alterra™ long-term care beds

Designed for safety, built to last

**Find the  
bed that's  
just right**

# **Make the most of your capital budget**

Alterra™ offers the perfect balance of features and price to meet your needs. The premium Maxx model has an expandable frame and offers 23" of height adjustment. Looking for something more basic? The 1130 is our most economical full-electric bed.

Ask your Medline Representative about our individually tailored payment plans.

# A better bedside manner

Developed from real-world observations of resident and caregiver needs, Alterra™ long-term care beds are a giant step forward in safety and performance.

## Resident and caregiver safety

We saw residents struggling to get in and out of bed and staff straining their backs while providing care. So we engineered Alterra with essential and advanced safety features, and to meet FDA entrapment guidelines.

- Exceptional high-low adjustment range helps reduce fall injury risks and ensures an ergonomic working position
- Mattress retainers reduce slippage
- Stability knobs keep head/footboards properly secured

## Industry-leading performance

In our conversations with you, we learned that enhancing the comfort and well-being of both residents and staff is a top concern. Alterra is designed to optimize care and perform for years.

- Top-of-the-line parallel electronics system delivers smooth and quiet operation
- Synchronized motors mean no horizontal movement when raising and lowering (except model 1100)
- Custom head/footboards, hardwood accents and beautiful finishes create a home-like feel
- Exceptionally long warranties ensure peace of mind

↓  
LOW height  
of 7.25"

Headboards  
and footboards  
sold separately

# Alterra™ Maxx

Expandable high-low bed

## Universal patient fit

Built-in extensions expand the length and width for patients of all sizes. Five-function hand pendant comes standard for exceptional ease of use. At the head and foot sections, our exclusive OneTouchLock™ secures the height with a simple tap of the foot. The smooth deck surface makes cleaning a snap.

## Safety

A convenient LED night light helps patients see the floor when getting out of bed at night. In case of a power outage, the built-in battery backup keeps all functions available.

To avoid strain on caregiver backs, the deck raises to 30.25"—the highest in our line. The low height of 7.25" reduces the risk of patient injury.

## Strength

The full 600-lb. weight capacity is the highest we offer.

## Appearance

Premium Alterra Maxx beds make a great impression on visitors and families.

Item number	Description
FCEALTMAXX	Alterra Maxx Bed (comes standard with integrated width and length extensions, five-function hand pendant, mounting hardware, wall guard, LED underbed lights, head section kickstand, mattress retainers)
FCEALTMAXXQ0	Alterra Maxx Bed Package (includes Alterra Maxx bed, soft touch side rails, head/footboards in transitional style, solar oak finish, mounting hardware)
FCEMAXX37	Alterra Maxx Staff Control Kit

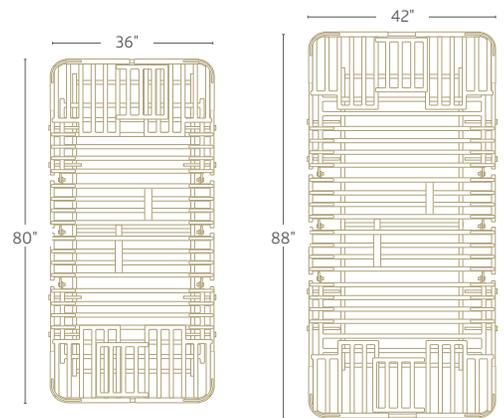

## Product specifications

<b>Height range</b>	7.25" to 30.25"

MAX height  
of 29.88"

↓  
LOW height  
of 7.75"

Assist bars,  
headboards  
and footboards  
sold separately

# Alterra™ 1385

High-low, full-electric bed

## Resident safety

OneTouchLock™ feature secures the bed and prevents rolling. A low height of 7.75" helps prevent injuries with high fall-risk residents. All Alterra beds meet the entrapment guidelines of the FDA.

## Safer patient handling

Caregivers can reduce back injury risks by raising the Alterra 1385 to a full 29.88".

## Performance

Top-of-the-line parallel electronics system is exceptionally smooth and quiet. Perfectly synchronized high-low motors keep the bed deck level even after frequent, long-term use.

Battery backup helps during power outages, and the 500-lb. weight capacity accommodates heavier patients. Wall guard, mattress retainers and stability knobs for the headboard and footboard come standard.

Item number	Description
FCE1385B	Alterra 1385 Bed only
FCE1385NRQO	Alterra 1385 Economy Bed Package (includes Alterra 1385 bed, head/footboards in Traditional style, Solar Oak finish, mounting hardware)

# Alterra™ 1232

High-low, full-electric bed

## Resident safety

A low height of only 7.25" helps reduce injuries from falling with high-risk patients. All Alterra beds meet the entrapment guidelines of the FDA.

## Performance

Bed moves from lowest to highest height within 47 seconds and without any horizontal movement, eliminating wall damage. Battery backup helps during power outages. Wall guard, mattress retainers and stability knob for headboard and footboard come standard.

## Strength

Built for resident and caregiver peace of mind — strong, quiet, safe and positionable. Combination grid/rib deck enhances comfort and strength, while preventing structure from sagging.

Item number	Description
FCE1232B	Alterra 1232 high-low bed only, with battery backup
FCE1232NRQO	Alterra 1232 Economy Bed Package (includes Alterra 1232 bed, head/footboards in Solar Oak finish, mounting hardware)

# Alterra™ 1130

Economic, high-low, full-electric bed

## Cost effective

Provides positioning comfort with independent and simultaneous operation of the head, knee and hi-low functions. Strong, well-built and low-maintenance electric bed is suitable for most residents in long-term care facilities.

## Resident safety

A low height of only 7.25" helps reduce injuries from falling with high-risk patients. All Alterra beds meet the entrapment guidelines of the FDA.

## Performance

Lightweight bed was built for ease of use and transporting. Smooth performance with ultra-quiet, dependable DC motors that operate without any horizontal movement, eliminating wall damage. Wall guard, mattress retainers, and stability knobs for the headboard and footboard come standard.

Item number	Description
FCE1130B	Alterra 1130B high-low bed only

# Bed accessories

Our extensive range of bed accessories complement our long-term care beds. Your Medline representative can help you determine the best options to meet your specific needs.

## Staff control

(FCE1232038/FCE1385038/  
FCEMAXX37)\*

This convenient control is mounted into the footboard of Alterra™ beds and allows staff members to lock any or all bed functions to make the bed safer for select residents. Item numbers vary by bed, please see below.

\*Staff Control is ordered as item FCEMAXX37 for Alterra Maxx bed (see pg. 5), item FCE1385038 for Alterra 1385 bed (see pg. 7).

## Assist bar

(FCE1232ABN)

This positioning aid has a cane shape that is easy to grip for elderly patients, when rolling over or getting in and out of bed. Also swings away for easier patient transfer.

## Soft-touch assist rails

(FCE1232RSRN)

These steel rails have a coating that is soft to the touch and offer a less institutional look. They're comfortable to grip when rolling over or getting in and out of bed.

These assist rails can be mounted either on the head section or the foot section of the bed deck.

## Standard assist rails

(FCE1232RSR)

These 29" assist rails are long enough to cover the entire head section of the bed and offer additional protection for patients at a high risk for falls.

They can only be mounted to the head section of the bed deck.

### **Quick-release side rails** (FCEQRSIDE)

Quick-release side rails for Alterra beds are comfortable to grip when rolling over or getting in and out of bed.

These soft-touch, blow-molded side rails can easily be attached and detached for staff convenience.

**Note: Not available for FCE1130B.**

### **Extra-tall assist rails** (FCE1232RSRXT)

Low air loss mattresses are generally between 10" and 12" thick, about the same height as standard bed rails. Our extra-tall rails are the perfect complement for low air loss mattresses.

These assist rails can be mounted either on the head section or on the foot section of the bed deck.

### **Mounted trapeze**

(Mounting Kit: FCE1232TPZ;  
Trapeze: MDS8061ST)

Our trapeze adapter kit is mounted on the bed's frame so that it can move up and down with the bed, allowing the trapeze to be used at any height.

**Note: Trapeze Bar Attachment for FCE1385, FCE1232, and FCE1130. Trapeze Bar and Mounting Kit must be ordered together.**

**Not available for Alterra Maxx.**

### **Bed extenders**

(Length: FCE1232EXT; Width: FCE42KIT)

Length extenders modify the bed from 80" to 84" to accommodate taller residents.

Width extenders modify the bed deck from 36" to 42" wide.

**Note: Available for FCE1232B and FCE1385B. Alterra™ Maxx features built-in width and length extenders.**

**Not available for FCE1130B.**

Ask your Medline representative about our wide variety of mattresses, matching case goods and linens.

# Service plans for long-term care beds

Pulling each bed from a resident room. Performing maintenance and servicing. Then putting it back. It all adds up to days of staff time.

There's a better way.

Our bed service plans keep minor issues from becoming larger problems. Expert technicians from Certified Centers of Excellence (ISO 13485, 900) guarantee your beds operate properly for 12 months after your service, regardless of bed age. So you can make the most of your bed investment.

## Choose the plan that's right for you

### Annual preventive maintenance plans

- Full inspection and lubrication of moving parts to ensure proper operation
- Complete functional check of all electronics, mechanical components and rails

#### Ordering information

# Your complete capital planning and services solution

We design, deliver and install.

From designing and choosing product, to delivery and installation, our experts work closely with you to make your capital purchases easy.

## Free design assistance

From space planning to product and fabric selection

**We'll evaluate your space and develop a custom layout**

- Layouts that make the most of your space, creating the best environment to meet your needs, from a single room to an entire facility
- Product recommendations
- Color schemes and fabric recommendations
- 3D renderings
- Detailed quote

## Simplified shopping

With Medline's Capital Quote Tool

**Compare equipment options, quickly and easily. Visit [MedlineCapitalQuote.com](https://www.medline.com/capitalquote) to start browsing product.**

- Choose from premium Medline products and other national brands
- Browse virtual rooms or search for specific items
- Choose product images to add to your quote
- Request a quote directly through the tool

## Delivery and installation

With white glove service

**Unique receiving needs? No problem.**

**We'll help coordinate:**

- Warehousing and consolidation
- Assembly: pre-delivery or during installation
- Delivery: dock-to-dock\*, lift-gate\*\*, or inside to a specific location
- Unpacking and installation including wall-mounting
- Old equipment removal
- Garbage removal with dumpster

\* Let us know if our 53-ft. carrier won't fit in your dock. Additional charges apply if we have to return to our hub, put your equipment on a smaller truck and attempt a second delivery.

\*\* Lift gates must be requested when ordering as not all of our trucks have them.

## World class service, delivered

You found the beds you need. Now how do you get them delivered quickly and installed with minimum disruption? We can help.

From schedule coordination to old equipment removal, our team of experts will handle everything. Contact your Medline representative for a complete list of our capabilities.
