

Neptune 2 Rover Service and Repair Program

ReNewal™
Full Circle Reprocessing

Extend the life of your rover and continue to save with ReNewal reprocessed manifolds

There's no time for downtime.

Your business relies on the timely function of your Stryker® Neptune 2 rovers. Medline Renewal now offers a best-in-class preventative maintenance and repair program to support your equipment. Realize the savings from our reprocessed manifolds and avoid getting locked into long-term agreements with the peace of mind knowing that your equipment is covered, so you can continue to run your facility without interruption.

- On-site Preventative Maintenance (PM) nationwide on Rovers and Docking Stations
- Quick repair turnaround and full service support

No capital or long-term usage agreements.

- One and Two Year Agreements available for customer flexibility
- Loaner rovers and docking stations available during repair and for purchase
- Rigorously inspected for quality assurance
- Choose the service and repair plan that meets your needs

Keep your rover in “spec.” Contact your Medline Representative for additional program details.
